.. INFORMATION ..

TEST GARDEN—Our own introductions and all new varieties from all parts of the world are planted in our test garden and their habits carefully noted and only those of outstanding merits are listed in our catalogue, and many are discarded each year because their habits do not come up to our standard. Our planting stock is carefully inspected both before planting and while growing, by ourselves as well as by the state inspector, and if any does not look healthy it is destroyed. Our Gardens are licensed by the state.

GUARANTEE—Our dahlias are not forced for big blooms but are grown for good tubers. Our tubers are strong and full of "pep" and we guarantee every tuber we sell to be true to name, and we will gladly replace any mistake; also guarantee each tuber to have live "eye" or sprout and if planted right and given proper care we are sure will grow. Please notify us at once if a shipment should arrive in unsatisfactory condition.

Full Cultural Directions are sent with each order.

ORDER EARLY—Orders are reserved in the rotation received and ordering early will avoid disappointment.

SUBSTITUTIONS—We do not substitute unless instructed to do so. Please give a few second choice, especially if ordering late.

SHIPPING—We send out all orders that are paid in full, between April 15th and May 1st unless you specify a later date. Orders shipped before April 15th at purchaser's risk.

TERMS—Cash with order. No order sent C. O. D. unless 50 per cent of purchase price accompanies order. A deposit of 25 per cent with the order will reserve the order for you, and balance must be sent before shipment. Orders not held after May 1st unless paid in full, except by special arrangement.
